The Protocol
Student Services, CPI and UTI
Presentation to COSS
The Protocol was created pursuant to Ministry requirements to establish “a formal agreement between the institution’s administration and student government representatives which set out the means by which students will be involved in decisions to introduce a new or modify an existing compulsory non-tuition related ancillary fee.”

The “Protocol”
(MOA between SAC, GSU, APUS for a Long-Term Protocol on the Increase or Introduction of Compulsory Non-Tuition Related Fees)

COSS considers Student Services Fees and provides advice to UAB. Decisions of COSS (approval or failure to approve) related to fees are then conveyed to UAB.
Advice to Governing Council

If the majority of student members approve the fee increase, the fee increase is brought forward to UAB for approval.

If the majority of student members do not approve the fee increase, UAB may approve increases based on two indexes.
CPI (Definition – Student Services)

CPI is the inflation factor equal to the Consumer Price Index as described in the University of Toronto's Long-range Budget Projection Assumptions and Strategies (or its equivalent).

UTI is an indexation of a service's fee
- accounts for changes in salary and benefit costs, revenue from other sources, occupancy costs, and changes in enrolment.
- calculated separately for each service's fee.

= **UTI Indexed Fee (per term)**
Permanent and Temporary Increases

The lessor of the UTI increase or the CPI increase.

And
